- 32) Experience of Support in Mothers of Children with Learning Disabilities. Journal of rehabilitation nursing. 2008.(ISI)
- 32) Lived experience in mothers who Lives with their Children with Mental Retardation, Behzisti university
- 33) The effect of educational self care plan of mothers on clinical status of RTI in infants

LIST OF PAPERS PRESENTED IN CONGRESSES AND SEMINARS

- 1) The study of selfcare education effects mother's knowledge Who has cp children.
- 2) The survey of proper administration of oral antibiotic given by mother of preschool children.
- 3) The survey of Educational needs of the spouses of paraplegic immobiles.
- 4) The Evaluation of physical and psycho-social problems in paraplegic clients.
- 5) the survey of child abuser parent in primary school children.
- 6) Evaluation the effects of health education program on preventing of Diarrhea in Infant and toddler children.
- 7) The study of High school Girl's participation effects on women's selfcare in Breast self - Examination (BSE).
- 8) The Role of High school Girl's participation in preventing of breast cancer.
- 9) The effects of representational structures on pain after musculo-skeletal injury in school age children hospitalized.
- 10) Survey effects of regular exercise training program on Depression children of hemodialysis.
- 11) Study of mother's educational needs URTI in 0-6 years old children.
- 12) The Prevention of visual disturbances in children and Adolescents.
- 13) Nursing care in Asthmatic child.
- 14) Child Adoption.
- 15) Critical care Nursing in Asthmatic child.
- 16) The survey of parent and Infant interaction in feeding.
- 17) The survey of Urinary problems in Immobile patients.
- 18) The Role of mother's knowledge in prevention of vit A deficiency.
- 19) the development of Nursing care plan for treatment of depressive elders.
- 20) Physical and emotional needs in CP children.
- 21) Application of Nursing care plan for elder's families.
- 22) The survey of proper prevention of infant and neonatal infections.
- 23) The effect of representational structures in pain after musculoskeletal injury in school age children hospitalized.
- 24) Survey effects regular exercise training program on Depression 8-12 years - old children underlying of Hemodialysis.
- 25) Assessing children it's different.
- 26) Helping families say Good-Bye.
- 27) Nursing the family when a child dies.
- 28) New attitude on Babies Co-sleeping with parents.
- 29) Can we help the substance abusing mother and Infant?
- 30) The Role of education on health promotion.
- 31) The survey of parent and infant interaction between feeding in infant with CHD.
- 32) The efficacy of a dietary intervention program for micronutrients on the nutritional practice of school children's families.
- 33) The effect of Benson's relaxation training to Diabetes control in diabetics patients.
- 34) The survey of the effect of auto - accupressure on relieving headache in migraine.
- 35) The effects of hydrocolloid dressing and silver sulfadiazine 1% healing process of the second degree burns.
- 36) The Role incorrect Health beliefs and practices in failure to thrive child.
- 37) Quality of life in LBW infant who has cp.
- 38) The survey of proper prevention of neonatal and infant infection by their mothers.
- 39) family, chronic sad and nurse.
- 40) Nursing process in children with MR.
- 41) Nursing care plan in child with cyclical respiratory virus.
- 42) The effect of educational group therapy plan on adolescent girls self esteem rate .

- 43) What is women attitude about "healthy"?
- 44) Effect of the Benson Relaxation Technique application on hemodynamic parameters and stress of discharge in patient with Acute myocardial infarction.
- 45) The effect of motivation on prevention and control of enuresis in preschool children.
- 46) The survey of educational needs in patients about prevention and control of TB.
- 47) The survey of staffing methods in ICU and the needs of ICU unit.
- 48) The survey of educational needs in patients about prevention and control of asthma.
- 49) The survey of depression of preschool age children and knowledge&practice of nurses.
- 50) Obesity and health risk factors
- 51) Sleep position and infant healthy.
- 52) Child abuse ,family,ethics, role of nurse.
- 54) nursing care plan in paraplegic clients.
- 55) To compare the effect of hydrocolloid dressing with 1% silver sulfadiazin dressing in different aspects of healing process in second –degree burn wounds
- 56) The effect of group play on the self concept of hospitalized school age children with leukemia.
- 57) The effect of designed care plan on prevention of infants pneumonia
- 58) The effect of the group counseling program (nutrition- exercise) on the status primary dysmenorrhea in highschool girls.
- 59) The effect of performing discharge planning for mothers on growth and developmental indicator in low birth weight.
- 60) The lived experience's mothers who have children with. Mental Retardation A Qualitative Study
- 61) Perceived Support in Iranian Mothers of Children with Mental Retardation: A Qualitative Study
- 62) How do see mothers of Children with Mental Retardation her Children?
- 63) the survey of mothers, attitude about neonate emprosis
- 64) The effect of designed care plan on practice of mothers about their care of infants .
- 65) The effect of designed care plan on plus and blood pressure of infants.
- 66) The effect of designed care plan on infants weight with penomonia .
- 67) The effect of designed care plan on respiratory status of infants weight with penomonia .
- 68) the survey of qualitative medical education in nursing.iran in 2021 years.
- 69) The effect of designed care plan on prevention and control of respiratory infection in infants.
- 70) The effect of educational care plan for mothers on period of disesae in neonate with LBW.
- 71) The effect of educational care plan for mothers on scales of growth and development in neonate with LBW.
- 72) The effect of discharge planing on time of ear&see problems in neonate with LBW.
- 73) The barrier and faciators of health based on lived experience of mothers who have LD child.
- 74) How mothers who have LD child see them?
- 75) The survey of health status in middle age zanzanian women.
- 76) The survey of health promotion bahaviour in patient with heart disease
- 77) The survey of correct perception in out of patients about TB disease.
- 78) The role of nurse in assessment and prevention of child abuse
- 79) Breast feeding and decrease risk factor of obesity in childhood.
- 80) The effect preventional intervention on obesity and complication of it

SEARCH PROJECT LEADER

- 1) The survey of education needs of the spouses of spinal cord paraplegic immobiles
- 2) The survey of Physical and psycho-social problems in spinal cord paraplegic-immobiles
- 3) The survey of proper administration of oral antibiotic given by mother of preschool children.
- 4) The survey of educational needs of patient about control and prevention of TB.
- 5) the survey of the effective aspects on prevention of adolescent addiction.
- 6) What is female attitude about healthy?
- 7) The survey of proper prevention of UTI in toddler children. By their mothers.
- 8) the survey of proper prevention of neonatal an infantal infection by their mothers.

Students

SEARCH PROJECT LEADER

- 1) The survey of education needs of the spouses of spinal cord paraplegic immobiles
- 2) The survey of Physical and psycho-social problems in spinal cord paraplegic-immobiles
- 3) The survey of proper administration of oral antibiotic given by mother of preschool children.
- 4) The survey of educational needs of patient about control and prevention of TB.
- 5) the survey of the effective aspects on prevention of adolescent addiction.
- 6) What is female attitude about healthy?
- 7) The survey of proper prevention of UTI in toddler children. By their mothers.
- 8) the survey of proper prevention of neonatal and infant infection by their mothers.

RESEARCH STUDENTS SUPERVISED

- 1) Evaluate the effects of health education program in preventing of Diarrhea in infant and toddler children.
- 2) The effects of Benson's Relaxation training to diabetes control in diabetic patient.
- 3) Effects of a researcher - developed dietary intervention program about micronutrients on the nutritional practices of school children's families.
- 4) The effect of representational structures in pain after musculoskeletal injury in school age children hospitalized.
- 5) A survey effect of Nursing intervention (Relaxation and Fluid therapy) Application on the Respiratory status of textile factory workers.
- 6) A survey effect of Regular exercise training program on Depression 8-12- old children underlying of Hemodialysis.
- 7) The survey of child abuser parent in primary school children.
- 8) The study of knowledge and practices of nurses about NCP in elderly.
- 9) The survey of Quality of care in tehranian thalasemic patients.
- 10) To compare the effect of hydrocolloid dressing with 1% silver sulfadiazin dressing in different aspects of healing process in second-degree burn wounds.
- 11) Effect of the Benson Relaxation Technique application on hemodynamic parameters and stress of discharge in patient with Acute myocardial infarction.
- 12) The Survey of the effect of auto-acupressure on the amount of pain in patient with migraine.
- 13) The effect of educational group therapy plan on adolescent girls self esteem rate.
- 14) The effect of group play on the self concept of hospitalized school age children with leukemia.

- 15) The effect of the group counseling program (nutrition- exercise) on the status primary dysmenorrhea in high school girls.
- 16) The effect of performing discharge planning for mothers on growth and developmental indicator in low birth weight.
- 17) The effect of Discharge planning on anxiety of patient with MI.

RESEARCH STUDENTS Co-SUPERVISED

- 1) The study of selfcare education effects mother's knowledge who has cp children.
- 2) Study of mother's educational needs in URTI in 0-6 years old children.
- 3) The study of high school Girl's participation effects on women's selfcare in Breast self examination (BSE).
- 4) The effects of touch therapy on premature neonate weight.
- 5) The effect of motivation program on prevention and control of enuresis
- 6) The survey of preschool of age depression in welfare
- 7) The effect of touch therapy in LBW neonatal in two groups control case
- 8) The effect of self care plan mothers who have infant with UTI.
- 9) The survey of clinical education needs students in ICU.
- 10) The survey of quality of clinical teaching in nursing.
- 11) The effect of designed care plan on prevention of infants pneumonia
- 12) survey of health assessment in elderly and nurses, knowledge and practice about their care needs.
- 13) The survey of health promotion behaviour in nurses, challenges, strategies of health promotion.

Professional Experience

RESEARCH INTERESTS

- 1) Pediatrics
- 2) Physical problems in Immobile clients
- 3) health care in chronic disease.
- 4) Child and family health in chronic condition
- 5)Qualitative and Quantitative Research about Child and family health in chronic situation such as developmental disability
- 6)Quality of life and life style for health promotion in chronic situation
- 7)Application of HPLP2 in women,children and adolescents in variety of situation.

ACADEMIC EXPERIENCES

Instructor of Nursing, Faculty of Medical Sciences of Tarbiat Modarres University, Tehran, Iran, (Since1990-2006)
Assistant Professor of Nursing, Faculty of Medical Sciences of Tarbiat Modares University Tehran, Iran, (Since2007)
